## What is the Summer Institute?

A project of the Maine AFL-CIO and the Bureau of Labor Education, the Summer Institute has been a long-standing tradition of bringing union members together to meet each other, learn new skills, and build our power.

The Institute is a mix of formal workshops and informal time where we can all have a chance to get to know each other.

The past years have been exciting and filled with hard work. We know we can do more!

We hope that you join us this summer as we work to build the power of the labor movement in Maine and fight to win more changes to improve the lives of union members and working families in Maine.
